# LED Lighting Modules

# TECHNICAL SPECS

"We have designed our LED Lighting Modules to facilitate the dark and hard working conditions of the Rack Cabinets' inside and outside environment during both installation and use."
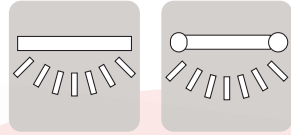

## HIGHLIGHTS

- Motion Sensored LED modules can be configured double colored.

- Motion Sensor/Door Switch Options

- Magnets can be added to eliminate the need for installation and the light source can be easily moved to the desired location.

## FEATURES

| Height | 1/2U (22,5cm) |
|---|---|
| Width | 19" |
| Lighting | 6000 Kelvin |
| External Power Unit Input Power | 100-240 Volt AC |
| External Power Unit Output Power | 12 Volt DC - 1,7A |
| Maximum Power | 500-600mA (6-8W) |
| DC Connection Socket | Power Jack |
